Crewing Bulletin

April 2019

Filipino Crew

UPDATES ON PERSONAL DETAILS

Crewmembers are expected to keep the office informed of any updates on their personal information.

Any change on home address, contact number, email address or dependents, including contact information of allottees, needs to be communicated with Crew and Family Affairs at the soonest possible time.

This is to ensure crewmembers and allottees alike are timely informed of any company updates and can be immediately contacted in case of emergencies.

SAFETY WORKSHOP FOR VACATIONING CREWMEMBERS

In light of the accidents that occurred last year and to further strengthen our safety commitment, this year's Crew and Allottees conferences will include a safety workshop for all vacationing crewmembers.

Everyone who will be on vacation in time for the conference schedule in his/her region is expected to participate. Please take note of the following schedule for this year's Crew and Allottees conferences:

- **Bacolod** - April 27th
- **Cebu** - June 15th
- **Davao** - August 17th
- **Iloilo** - October 5th
- **Manila** - November 23rd

The workshop will be in line with this year's Global Safety Day and will follow the theme "Safer, Effective and Digital". It will focus on safety attitude and future of work in Odfjell, as well as mental health and social media.

Our most important guiding principle in Odfjell is that **we do not compromise on safety**. As such, everyone in the company has a responsibility to help develop the company's safety culture. This can be demonstrated by following our safety policies, and by partaking in activities that improve our safety performance such as trainings, drills, and workshops.

Help the ensure that every Odfjell seafarer gets to go home to his/her family in one piece at the end of every contract. Attend this year's Crew and Allottees conference and participate actively in the safety workshop.

For more information, contact Crew and Family Affairs at cfa@odfjell.com.
